## 2024 Special Clusters – Call for Proposals

---

The IEEE Antennas and Wireless Propagation Letters (AWPL) is inviting proposals for its 2024 special clusters.

The special clusters should be focused on emerging research topics and new developments relevant to the field of interest of the Antennas and Propagation Society.

### Submission

Prospective Guest Editors are invited to submit their proposal to the Editor-in-Chief of AWPL, Prof. Steven Gao ([scgao@ee.cuhk.edu.hk](mailto:scgao@ee.cuhk.edu.hk)). The proposal should contain the following:

1. The title of the special cluster.
  2. A 1-page description of the special cluster, clearly highlighting the relevance of the topic and its links to the field of interest of the Antennas and Propagation Society.
  3. The names, contacts and affiliations of all Guest Editors.
  4. An analysis of possible redundancies with past and current special issues in other journals.
  5. A short analysis of the capability of the special cluster to attract a sizeable number of high-quality submissions, including a tentative list of potential research groups and researchers that are likely to contribute to the special cluster.
- 

Proposals will be evaluated based on the following criteria:

- Relevance, significance,
- Cutting-edge nature,
- Potential to attract quality contributions,
- Scientific standing and experience of the Guest Editors.

### Important dates:

Proposal submission deadline:	<b>30 September 2023</b>
Announcement:	21 October 2023
Deadline for cluster contributions:	1 March 2024
Publication of the special cluster:	November 2024
